Terms of References for Consulting Services for conducting Initial Environmental Examination of Sustainable Extraction of Sand, Stone, Gravel and Boulder of Andayiya, Likma, Shivaganga, Kandra, Gauriganga and Chaumala River of Gauriganga Municipality, Kailali, Sudurpaschim Province

1. Background

This document containing brief description of the proposal and the Terms of References (TOR) has been developed specifically for hiring services of an independent and professionally competent environmental consultancy firm for conducting Environmental Study of the Sustainable Sand, Stone, Gravel and Boulder Extraction and collection from **Andayiya, Likma, Shivaganga, Kandra, Gauriganga and Chaumala Rivers** and associated rivulets of Gauriganga Municipality, Kailali district. Gauriganga Municipality of Kailali district has a huge potential for the river bed materials like sand, stone, gravel and boulder. Utilization of these resources on sustainable manner helps to improve the livelihood of rural people, maintaining river morphology and boost up municipality revenue. The proponent is planning to mobilize these resources on sustainable and environmentally sound manner because the demand rate is high for infrastructure construction. An environmental study of the proposed extraction of Sand, stone, gravel and boulder from the river is necessary in order to assess the environmental consequences of the project along with to support appropriate, practical and site-specific mitigation and enhancement measures. It will furthermore boost up the economic condition of the local inhabitants.

For extraction of river material municipality conducted environmental study in fiscal year 2079/80 that study shows per day extraction is less 300 cum which indicates IEE needed before extraction of river material. Therefore, as taking reference of pervious environmental study Initial Environmental Examination (IEE) recommended for fiscal year 2081/82 to 82/83 to sustainable extraction of river material. Detail of pervious study is given below

S.N.	River Name	Sustainable Extraction Quantity/year	Sustainable Extraction Quantity/day	Environmental Study Conducted
1	Shivaganga	37975	140.65	IEE
2	Kandra	28582.5	105.86	IEE

3	Gauriganga	49000	105.94	IEE
4	Chaumala	35992	133.33	IEE
5	Likma	28400	105.185	IEE

The IEE is also a legal requirement before the implementation of project as per the provision of schedule 2-K-7 related to Rule 3 of the Environment Protection Rule (EPR, 2020), per 2-C-7 related to Rule 3 of the Sudur Paschim Province EPA 2020. Thus, the IEE study of the proposal is mandatory as per the provision.

2. Proposal Area delineation

Location, accessibility of the project site, activities to be carried out (collection, extraction, excavation, river/stream diversion, site clearance, washing, processing, storage, transportation, use of machineries, no. of labourers, machines and its type) collection/extraction site/area, type of materials to be collected, quantity, collection/extraction period.

The consultant shall be responsible for setting the extraction sites and will get information about area delineation for extraction sites of each river by field visit itself and through Gauriganga Municipality Revenue Section.

3. Objectives of ToR

The Gauriganga Municipality is now required to prepare an Initial Environmental Examination (IEE) report before implementation of the proposed proposal. Thus, the main objective of the assignment is to conduct IEE study for the sustainable extraction, collection and transportation of stone aggregates and sand (gravel) from **Andayiya, Likma, Shivaganga, Kandra, Gauriganga and Chaumala Rivers**. The objectives of the ToR are as follows:

- To identify all the adverse and beneficial impacts likely to arise due to implementation of the Proposal.
- To reflect the main issues identified in the form of ToR
- To systematize the working procedure and listing of various activities to be performed.
- To delineate the working procedure and fitting the IEE report within the policy and legal context.

-
- To prepare TOR and IEE report for sustainable extraction, collection and transportation of stone aggregates and sand (gravel) from proposed rivers of Gauriganga Municipality.
